REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Consider claim 40. The nearest prior art as shown in Tymes and Hoff fails to teach a data collection network comprising: a plurality of roaming data collection terminals; a plurality of base stations; the plurality of roaming data collection terminals and the plurality of base stations each having wireless transceivers; each of said roaming data collection terminals selectively deactivates its wireless transceiver for a consecutive plurality of the defined intervals, wherein each of the terminals attempts to synchronize activation to receive information packets, transmitted by the base stations, wherein the packets comprise pending message indications.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
